Re: Letter of Recommendation

I am writing to fully recommend FPS Construction, Inc. for any construction projects, particularly within the healthcare division. FPS recently completed a gut renovation and full buildout of an urgent care medical facility under my supervision, and I am exceedingly impressed with their professionalism, expertise, and commitment to delivering exceptional results.

As the Project Manager overseeing the project, I had the privilege of working with FPS throughout all phases of the project, from pre-construction to construction and project closeout.

In the pre-construction phase, offering invaluable insights and recommendations that significantly led to our project's feasibility and success, FPS collaborated seamlessly with our architect, landlord and the property management group to overcome complexities with key solutions.

During the closeout phase, FPS ensured that the punch list was minimal and resolved in an efficient manner as I began staging for operation. FPS demonstrated a commitment to high level results in every aspect of their work, delivering on schedule and within budget. I have the utmost confidence in FPS Contracting and their abilities and with no hesitation would engage them for future projects.

Feel free to contact me if you require any further information, I am more than happy to provide additional details.

Sincerely,
Austin Felix
